SK FENCER

SK Fencer™ is a typeface inspired by the fine art of fencing. Its light linear features contrast with the angular thicknesses, creating a unique image of the font and influencing its behavior in the line. Using alternative uppercase characters, you can implement a lot of typographic ideas that will decorate your design. A large selection of weights will also be a great help in your work. The SK Fencer typeface is suitable for both headers and small text arrays, and its widest set of glyphs supports both extended Latin, Cyrillic and many other languages. SK Fencer - elegant, practical, dynamic, unusual!
