## Fonts FAQ

### [Can I use a font in a website, app, or eBook?](#)

You are not permitted to embed a purchased font into any of these mediums unless the shop offering the font has provided explicit permission for you to do so.

However, you can use rasterized text from a font you purchased to create a design that is displayed in any of these mediums, as long as you do not include each individual character. To inquire about purchasing further font rights, contact shop owners directly.
